

ProjectoWrite2

Real-Time Interaction

The ProjectoWrite2 is a jaw-dropper.

An interactive whiteboard, only better! Use a styus or pen to interact with your presentation - take notes on the screen, forward through slides, pull up a keyboard and type text on the screen - save your notes as a jpeg to pull up in future presentations. One projector that plugs into your computer or laptop - no special screens or software. So easy, a child could use it.

The **ProjectoWrite2** is an upgrade to the award-winning **ProjectoWrite**.

Give presentations while taking notes on screen, or highlight key points in real time.

Control the line thickness and color, take handwritten notes, type text from a keyboard then save as a JPG.

The **ProjectoWrite2** comes with a pen and writing wand—just plug it in and present.
