

## Key Features

- DLP Pico technology
- LED light source lasts over 20,000 hours while producing excellent color
- Project large widescreen images of up to 120" diagonal
- Universal Dock compatible with all iPhone models and iPod models with video capability
- 16W stereo audio with DSP and Bass Reflex technologies maximize sound quality and bass response
- 2000:1 contrast ratio produce detailed images
- Connection flexibility with a choice of HDMI or VGA port video

The Optoma Neo-i is unlike any other multimedia dock on the market integrating a multimedia projector from the leader in DLP Pico projection with a sound system and an iPhone/iPod dock. Now, anyone can create a home theater experience and enjoy your personal media collection in entirely new ways whether at home, work or at play. Dock your iPod®/iPhone® directly into the Neo-i and start projecting videos or photos instantly on most surfaces around your home or office. You will never want to view your content on a four-inch screen again!
