CP-TW2503 LCD Projector

Ultra short throw LCD projector with a suite of advanced features delivering a complete interactive experience.

Key Features

- WXGA 1280 x 800 resolution
- 2,700 ANSI lumens white/color output
- 5000:1 contrast ratio
- HDMI 2 inputs
- Powered Focus / Perfect Fit
- Interactive pens
- Auto-calibration
- Multi-pen capability
- PC-less drawing
- Multi-display interactive
- HDCR/Accentualizer

1.800.HITACHI dmd.info@hal.hitachi.com hitachi-america.us/projectors

The innovative interactive CP-TW2503 features an ultra short throw design and integrates Hitachi's powerful software to deliver a complete interactive experience on any flat surface. With a rich feature set that meets the specific interactive needs of K-12, higher education, and corporate users, the CP-TW2503 is both easy to install and easy to calibrate. It provides vibrant image quality with cost-effective operation and produces large images in small spaces. New generation interactive features include interactive pen, multiple pen capability, auto-calibration, PC-less drawing, and multi-display interactive. Additionally, a suite of advanced features normally found only on the higher end models includes High Dynamic Contrast Range (HDCR), 2 HDMI ports, and Hitachi's original technology Accentualizer that allows the projected image to appear more real by enhancing sharpness, gloss and shade. As with all Hitachi projectors, you can expect vibrant image quality, cost-efficient operation, and long-lasting reliability. Plus, Hitachi's Intelligent Eco and Saver Modes with ImageCare combines optimal picture performance with energy-savings for a lower total cost of ownership. For added peace of mind, Hitachi's CP-TW2503 is also backed by a generous 3 year warranty and our world-class service and support programs.

CP-TW2503

UNIQUE FEATURES

Accentualizer

Hitachi original technology makes pictures look more real by enhancing sharpness, gloss and shade to make pictures as clear as pictures on a flat-panel device. You can also adjust the effects by three levels according to your surroundings so that the colors of projected images are the actual

colors of the objects they represent.

Sharpness

HDCR (High Dynamic Contrast Range)

When average projectors are used in bright rooms, the darker colors of an image deteriorate and images become unclear. Using this function, blurred images caused by room lighting or outside light sources are corrected, and

an effect similar to increas ing contrast occurs. This results in clear images even in bright rooms.

Cloning Function

settings Copy setting data from one projector to others of the same model via USB memory. Cloning not only saves almost all PJ settings such as gamma and keystone via USB memory, it saves countless hours in setup and installation.

ImageCare Technology

ImageCare ImageCare is a lamp power control function that combines optimal picture performance with maximum energy savings by decreasing energy usage, improving contrast ratio and lengthening lamp life. The result is a lower total cost of ownership and decreased maintenance cost.

Intelligent Eco and Saver Modes

Automatically changes the brightness of the lamp according to the brightness level of the screen. Also, automatically changes the brightness of the lamp if there is no change in the screen image. Using ImageCare technology, these features give optimal picture performance with maximum energy savings.

Perfect Fit 2

Enables the user to adjust individual corners and sides independent of one another. Perfect Fit 2 provides vertical and horizontal digital correction of either barrel or pin cushion distortions. This feature helps correct geometric and complicated distortions. Perfect Fit 2 allows the projected image to fit correctly to the screen quickly and easily.

Projector Quick Connection App For Mobile Devices

Our iOS application offers projector control and also provides the capability to display photos, document files and web site contents. Available for iPad®, iPhone® and Android devices. Works over your LAN via your RJ-45 port or via an optional

Make any tabletop a projection screen using the optional tabletop stand. Ideal for a small group environment or in a room with limited space.

HI0285-Rev.2-06/14 Mappetitications subject to change without notice. 3LCD and the 3LCD logo are registered trademarks of the Seiko Epson Corporation. ©2014 Hitachi America, Ltd. All Rights Reserved.

USBWL11N wireless adapter.

STANDARD FEATURES

Input Source Naming

Users can name input sources in simple language instead of factory default names.

Microphone Input

A microphone can be used via the jack located on the input panel. Allows for more dynamic presentations even in standby mode.

Network Control, Maintenance and Security

Embedded networking gives you the ability to manage and control multiple projectors over your LAN. Features include scheduling of events, centralized reporting, image transfer and e-mail alerts for reactive and routine maintenance.

PC-Less Presentation

By using a USB memory stick or other storage device, you can use the projector without a computer. Menus are easy to see with a thumbnail display. Additionally there is also a slideshow and video function.

PIN Lock / MyScreen / MyText

PIN lock protection can limit projector users. MyScreen PIN lock keeps captured images on the startup screen. Users can set any name logo to MyScreen, clearly identifying ownership. MyText provides the ability to write text on the startup screen such as model name, serial number or location.

PJMessenger

PJMessenger function allows you to send and display text messages and audio alerts on your networked projectors. It is an easy and efficient way to send announcements out to multiple units.

Present Content via LAN

Hitachi's suite of networking software allows you to easily send content directly from your PC to the projector via your LAN connection.

Template Function

Line templates in the projector menu can help when writing Line templates on a whiteboa choose from. on a whiteboard. There are four types of line templates to

Wireless Presentation Compatible

Connect the projector to a a computer or your network using the optional USB wireless adapter (part number USBWL11N). The adapter supports IEEE802.11b/g and the latest 11n.

Actual filter life will vary by individual filter and based on environmental conditions, selected operating mode, user settings and usage. Hours of average filter life specified are not guaranteed and do not constitute part of the product warranty.

- Actual lamp life will vary by individual lamp and based on environmental conditions, selected operating mode, user settings and usage. Hours of average lamp life specified are not guaranteed and do not constitute part of the product or lamp warranty. Lamp brightness decreases over time.

New generation interactive projector for education and corporate environments.

The CP-TW2503 ultra short throw interactive LCD projector from Hitachi is specifically designed to enhance the visual experience — from the audience to presenters. Whether in a classroom or executive boardroom, the CP-TW2503 is the perfect solution.

With 2,700 ANSI lumens brightness and WXGA 1280 x 800 resolution, the CP-TW2503 will captivate the full attention of any audience by delivering your message with clarity and impact. Vivid colors. Bold graphics. Crisp text. It also features a high contrast ratio, long lamp life, cloning function enabling you to copy settings data from one projector to others of the same model, and is wireless presentation ready. Plus, embedded networking gives you the ability to manage and control multiple projectors over your LAN (scheduling of events, centralized reporting, image transfer and email alerts). Best of all, the high performance CP-TW2503 is exceptionally reliable and offers a very low cost of ownership.
