### Acer ColorBoost3D/ Acer ColorSafe II

Acer ColorBoost3D combines 6-segment color wheel design with DLP™ chip and lamp power control capability, improving optical color performance for both 2D and 3D visuals. By boosting the color saturation up to a 30%, the technology provides a luxurious color feast. Acer ColorSafe II prevents excess yellow hues, a sign of color decay, so that color fidelity is preserved even after prolonged use. Enjoy true to life color images, now and always.

## Enhanced Flexibility
